BRIDE SLAIN BY FORWER SUITOR

# Mrs.A.J. Grant, Wed Three Weeks, Shot Down; Man Is Suicide

LOS ANGELES, Aug. 8.-Mrs. A. J. Grant, who was married Offices in the Realty Syndicate in San Francisco three weeks ago and came here with her husband Warrant Out for the Son of to live, was shot and killed today by Emil Holst, a rejected suitor, who immediately committed suicide.

Holst entered the apartment of Mrs. Grant about 10 o'clock and without a word fired two bullets into her forehead. She fell dead. Then the slayer shot himself in the head and died half an hour later in the Receiving Hospital at central police station.

Little is known here of the principals or the causes of the tragedy further than the fact that Holst had been rejected by Mrs. Grant. Holst, it is believed, came here immediately upon learning of the marriage of the Grants. He arrived yesterday, and after ascertaining the address of the bride, went there this morning after Grant, who is employed at the city gas plant, had gone to work. No one saw him shoot, as he slammed the door of the Grant apartment shut when the landlady offered to show him in.

Holst was a house painter and formerly lived here. Mrs. Grant Oakland within the next few also is believed to have been at one time a resident of Los Angeles. The police in searching the room where the tragedy occurred, Suitable headquarters in the picked up two notes, one of which gave instruction that \$180 found Realty Syndicate building have in the pockets of Holst "be given to his children who live here." been obtained and it is expected The other note read: "When we cannot live together, we will die

Mrs. Grant was 35 years of age, Holst about 40.

The second time she attacked me, Sunday evening, I was walking along Twenty-fourth avenue with Mr. Whistler and my daughter, Dixie. It had been to Santa Rosa on business and had accidently met Mr. Whistler on the train. We have always been friends and he asked if he could accompany me home. I was surprised when Mrs. Whistler ran from behind a tree and caught hold of my arm. Her husband made an effort for my arm. Her husband made an effort to restrain her and held her until my son came to my rescue. It was only for Mr. Whistler's sake that I did not at that time prefer a charge of assault and battery against the woman.

read to Mr. Perkins, was that of a plan which the finance committee of the corporation had been talking over and was

going to submit that day to the board of directors. Perkins explained that when the separate companies of the corporation were brought together there were many con-tracts that had recently been made for extensions and improvements, aggregating something over \$40,000,000. The corporation had reduced them something like \$20,000,000, being forced to carry the contracts along. In addition he told the executive committee that the pur-chase of the Rockefeller oil properties had caused the steel corporation to give deds Carter as minister to the Balkan amounting to about \$10,000,000, leaving amounting to about \$10,000,000 that was not capitalized and that "we have been was not capitalized and that "we have been was not capitalized. "It was not fair to take it out of the earnings of the several companies, we thought," Perkins was quoted as having thought." Perkins was quoted as having said to the executive committee, "after they were brought together and we have given the matter a good deal of thought as to how and what to do with it and not hurt the securities. And it brought about this idea of an attempt to retire part of the preferred stock of the com-pany for second mortgage bonds and save enough in doing so that we could get out an extra amount of bonds to these items.

"We think we can take un about 40 per cent of the preferred stock, or \$200, 000,000, which now costs about \$14,000,000 in dividends at 7 per cent on \$200,000,000, and in place of that issue \$250. Embezzlement Charge Against

WATSONVILLE, Aug. 3.—Preparations for the "Apple Annual," California's great apple show, the second one of which will be held here October 9-14, are going rapidly ahead, and prospects now are that last year's success will be eclipsed. In addition to creating an interest in a better and more uniform pack, more careful selection and other features tending to improve the market for local packers and growers, the first apple annual held in 1910 was remarkable in its demonstration of the apple growing possibilities of other sections of the State.

## The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become reak and impoverished, and that his whole body is improperly and insufficiently nourished.

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your naighbours. They must know of many cures made by it during past 49 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R.V. Pierce, Pres., Buffalo, N. Y.

ton Officials; "I'm Finished," He Says.

STOCKTON, Aug. 8.—Chief of Police Frank Briare went to San Francisco yesterday to make a further investigation into the case of Helen Johnson Whitson who was deceived by the white slaver, Harry De Lorne, at present serving a term of 180 days in the Stockton jall on a charge of vagrancy. Be-fore leaving, the chief and Frank De-Pue, who worked upon the case and followed DeLorme to this city through the thumb print system, secured a practical admission from him that he had drugged Miss Whitson. At first he would not talk, but when confronted with Fred Duval, who was brought here from San Francisco for the pur-

with Fred Duvel, who was brought here from San Francisco for the purpose of identifying DeLorme, the latter was greatly surprised.

The two men asked to be allowed to talk in French, but the police had a man present who speaks that language. Duval informed DeLorme that the officers knew all about drugging the girl and that she had been found. DeLorme then exclaimed: "It is finished. It means thirty years for me." He refused to give a detailed account of where he took the girl.

The officers are looking for a man who gave the name of Webb or West and claims to be a traveling salesman, but is one of the gang. He had \$30 sent to him to get the Whitson girl out of the state. The brother of the girl was here and made an effort to assault DeLorme, and had to be sent out of the police office.

sive in every respect and justly celebrated.

"Now, by reversing that argument, I have been able to look back to a time when the dust now aggregated in the nebulae and clusters was very diffuse and uniformity distributed about the centers of attraction, and had thus come in from all directions, showing that it has been expelled from the surrounding stars by the action of repulsive forces.

"Accordingly, just as the condensations now seen in the nebulae and clusters point to the growing concentration under the central powers mentioned by Herschel, as also do these same condensations point backward to an original wider dispersion of the dust about these centers in long ages past, and thus give us a most comprehensive proof of the universal scattering of the cosmical dust by repulsive forces in the sideral universe.

This has not been decreed officially, but it has been given out by the Taft reception committee that the rumor of a chicken barbecue is a snare and a delusion. The committee pondered the chicken proposition long and hard, and the longer they thought about it the more like a dollar mark a chicken began to look. They concluded beef was nt so bad after all. Since Civil War.

WASHINGTON, Aug. 8.—The real purpose of the recent great assemblage of troops in Texas, aside from international considerations, was the creation of one tremendous military unit, and that was successfully accomplished for the first time since the civil war, in the opinion of Major-General Carter, commander-in-chief of the maneuver division.

of the maneuver division.

Five times the cost of this operation would not measure the value to the country of the experiment, declared General Carter. It was the first opportunity that the modern army had to get together all branches of the service—the infantry, the cavalry, the artillery, the transportation and sub-sistence departments.

#### A Tariff Reform Humbug Expesed.

The Springfield Republican points out that the so-called farmers free list bill is a humbug, framed under false pretenses and put forward for partisan political reasons. This is strong language, but it is justified by the facts, nor can it be charged to partisan feeling or friendship for the protective tariff.

Ever since 1875 the Republican has been advocating reducing all tariff duties to a revenue basis. It has been a consistent opponent of the protective policy for a generation, supporting Tilden and Cleveland on that issue. It does not now denounce the so-called farmers' free list bill because it is an attack on the protective system, but because it is a fraud. Here is what the Republican says

"It is wrong in theory, false in its pretensions and would prove injurious in many of its effects if enacted. It pretends to offset to the farmer his loss of protection from Canadian reciprocity by transferring to the free list many finished articles of protected manufacture. But this is a false pretension, for the farmer never, has had and does not now have any effective tariff protection to be taken away by the reciprocity bill. It is not for standpat Republicans to say this, for they have been preaching the falsehood time out of mind to hold the farming vote to the high protection system. But we can say it, and it is here said with as much emphasis as possible. The offerings of the free list bill are therefore a pure gratuity and tendered in mere political wantonness.

"As the bill is false in its pretensions so it is utterly wrong in its theory and must accordingly be bad in its practice. The protective tariff system was adopted in the single purpose and has been maintained in no other legitimate purpose than to promote manufacturing in a country that was chiefly given to agriculture. This system in these later days has been allowed to run into excessive protection Get a Stake in the Land. for manufactures; and to maintain itself in these abuses it has been perverted into the vain purpose of trying to protect all industry which can only be done at the expense of all industry, which is as hopeless as for a person to try a lifting of himself by his own boot-

"As the tariff was built up so it must be cut down if the job is to be done without industrial convulsion. It was built up to protect and establish manufactures. It was perverted to "protect" foods, raw materials and the country's natural wealth generally, which needed no protection, which manufacturing needed at the outset to be protected against, and which could not be effectively protected without impairing the protection to manufactures. Therefore to cut the protective system down we must begin where the other movement has ended and free raw materials while reducing the duties on manufactures."

As the Republican points out the bill violates the very theory on which it was framed and contradicts the arguments on which the abolition or reduction of protective duties is demanded. It puts the cart before the horse and has assumed that the agricultural indusnature of things can never have. "If the principle of tariff revision the land hunger is unappeased. here adopted were extended to the whole protective system, we should free manufacturers all along the line and protect or tax food land. and raw material," continues the Republican, "and the industrial system of the country turned upside down."

This is the testimony of a tariff reformer who is practically a free trader, and who has no love for protection in any form. But in it, and any point in this favored section is within an hour's ride the Republican will not stand for humbug and false pretense, for sham reform and thimblerig politics. "They must be out of their senses," says the Springfield paper-"the Democrats and insurgents fail, but the land in the Alameda valley never fails to yield a good who are doing this thing. But they have made the course of President Taft perfectly plain. He must veto this bill. He cannot afford

paper is one of the most consistent, able and sincere advocates of tariff reform, one of the staunchest opponents of the protective theory. Now this great independent journal turns in disgust from this fake reform and announces that the President must veto it. not only because it is futile and foolish, but because it is a device of dishonest politics which mocks at real tariff reform, and which travesties the whole movement to revise the tariff downward.

The State of Georgia owns a railroad running from Atlanta to Chattanooga, a distance of 137 miles, and it is now proposed to extend this road to some point on the coast, probably Savannah. The State does not operate its railroad, but leases it to the Nashville, Chattanooga & St. Louis Railroad, which is controlled by the Louisville & Nashville. It is a very profitable piece of railway and holds ppen the door of Atlanta for the trade of the north and west. It is argued that by extending the line to tidewater the State will be able to control the freight rate situation and hold all combinations in check. Belonging to this State-owned line are terminals of enormous value in the heart of Atlanta and Chattanooga. It is proposed to move the freight yards in those cities, rent the terminal lands for commercial purposes and use the proceeds to extend the line to the

One day when Lux protested with some heat against a big land purchase Miller had made without consulting him, his partner turned on him with these words:

"See here, Lux; more people are being born into the world every day, but no more land is being born."

That settled the controversy, and the firm of Miller & Lux kept on buying land when it was cheap and the country undeveloped and sparsely settled. The enormously enhanced value of those lands constitutes the chief asset of the Miller & Lux corporation today.

What the clear vision of Henry Miller saw many years ago is apparent now to men of less prescience and foresight. As population multiplies the pressure on subsistence increases and the demand for tillable land becomes more eager and importunate. So great is the demand for land that the waste places of the earth are being reclaimed at enormous cost; men are going out into the desert in try has been deprived of a protection which it never had and in the search of homes and farms. And still the price of food goes up and

That is because more people are born every day, but no more

The lesson is obvious. Buy a farm; buy one now when land in the best localities can be had at a reasonable price on easy terms. The Alameda valley is of extraordinary fertility. Crops never fail of the metropolis. A stake in this land is better than money in the bank or life insurance. Banks and insurance companies sometimes crop at the very door of a great market.

If you buy an irrigated farm further back in the Sacramento or San Joaquin valleys you are secure from want for the rest of your We have quoted extensively from the Republican because that days and have an investment that will steadily increase in value.

During the decade between 1900 and 1910 farm land values people nay their way. throughout the United States increased 60 per cent. During the same period the same lands yielded an income considerably above the current rate of interest. In many localities the net revenue from farm lands was three or four times the current rate of interest.

In other words, farm land investments yielded a big income and at the end of ten years had increased in value 60 per cent-an annual increase of 6 per cent. In California the increase was nearly 200 per cent and in Texas 214 per cent.

And more children are born every day. Do you see the point? Is it not an exhortation to acquire a stake in the soil—a home stake -a place that will insure you a livelihood and an heritage for your children?

#### AMERICA'S OLDEST LIBRARY

The Boston Atheneum has recently become the owner of the oldest collection of books in New England, if not in America. This is the famous King's Chape library of 1698. This library has been in the custody of the Atheneum since 1823 out it was not until a short time ago that the proprietors of King's Chapel formally relinquished all claim to ownership.

This library had its origin in the exraordinary energy of the Rev. Thomas Bray. After graduating in 1678 from Oxford he became curate of a little country parish and first attracted attention by amphlet on some abstruce theologica oint in regard to the catechism. Later he announced that he was going to write pamphlet on the baptismal contract were, he said, 40,000 boys in England for the proper age for baptism. Of course, each of these boys would buy a copy of his book. He would sell them at a shilling and sixpence, of which sixence would be profit, and with this

thousand nounds he would put libraries in the poorest parishes in the country. And he carried out this scheme, raising money enough to purchase over sixty par ish libraries. In 1690 he was appointed "commissary"

to the Church of England churches in Maryland and as the ministers needed libraries in America he supplied them. In a few months he sent to America

land, but one was sent to Trinity Church, in New York, and one to King's Chapel, Boston.

Governor Bellomont was commissioned to bring over the Boston library. There were 211 volumes in the original collection, about forty being added later. O these 211 volumes there were 96 ponderous folios, 26 quartos, 85 octavos and 6 smaller volumes. Each was bound in leather.

This collection of theological works was the only library not private in New England except the Harvard College library, which was burned in 1774.

The titles of these books are not such as to make them popular reading today. There are not many calls for "Calvin Opera," "Chemnitii et Gerhardi Harnoniae Evangelicae," Drelincourt's "Consideration of Death" or "Liturgia Tim-

Until the Revolutionary War the library was kept in the house of the King's Chapel minister. In 1807 it was transferred to the theological library and in 1823 the theological library was placed in the Atheneum.

When the books were deposited in the Atheneum the library gave in exchange a life membership to the pastor. Of course this expired long ago.

Mr. Bolton wished the question of ownership settled, and it was voted to transfer to King's Chapel a proprietor's share in exchange for a formal relinquishmen

#### BRYAN'S THIRTEEN QUESTIONS William Jennings Bryan has roused no before of after nomination, shall be made

comment by propounding thirteen uestions to aspirants for the party's nomination for the presidency.

It may be inferred from Mr. Bryan's action that he intends to remain a "live wire" in the party. In fact, those who are not especially inclined to favor the Westerner do not hesitate to advance the view that he plans to remain its "big boss." Certainly, he does not mince matters in formulating the following

Do you favor a tariff for revenue only? Do you favor free raw material and the placing of a revenue duty only on manufactured goods?

Do you believe that in the revision of the tariff, the element of protection should be given consideration?

Do you believe the three branches of the government are co-ordinate and that each should keep within its constitutional sphere

Do you believe in the recent Standard Oll decision, wherein the Supreme Court "legislated" the word "unreasonable" into the Sherman anti-trust law? Do you favor the repeal of the criminal

clause of the anti-trust law, or Congress should make it clear the all restraint of traile is unreasonable? Do you favor the popular election senators?

Do you favor the income tax? Do you believe it is the duty of the American people to promise independence to the Phillipine Islands immediately and give it to them in the same way it was

given to the Cubans? Do you believe in publicity of campaign contributions?

Are you willing that the source of every woman says to some cities every dollar of the campaign fund, either "Lend me your powder rag."

Do you favor support of state govern-

ment in all its rights?

Do you enderse the labor planks of 1908, strict regulation of railroads, the Aldrich currency scheme, asset currency in any form, establishment of a central

bank and a law compelling banks to insure depositors? It is to be presumed that Mr. Bryan's views on these questions are clear. On certain of them he has spoken volumincusly. It has been said by some that had he not spoken at such length he might

have been President. However, it is doubtful whether any one of the three major candidates for the presidency—Harmon, Wisson and Clark—will desire to commit themselves categorically on such an extended line of

Whether from a natural desire to see where the land lies, or a feeling that Mr. Bryan has usurped the whole party's prerogatives, there seems to be a sentiment among leaders of Democracy to let the convention pass on these matters. candidate it shall select may be expected to coincide with its views.

Intoxicated McCloud Slayer Replies With Lead to Remonstrances.

McCLOUD, Aug. 8 .- Harry M. Ryan was shot three times by Elmer M. Mitchell in the presence of Mrs. Ryan and Mr. and Mrs. Ray Thomason. The shooting was unprovoked and was the outcome of Ryan trying to stop Mitchell's oaths in the presence of Mrs. Ryan Ryan fell dead at his wife's feet on the porch of the Thomason home.

Mitchell had come to Thomason's home in an intoxicated condition and was abus-ing Thomason for a fancied wrong. Ry-an was across the street and went over to stop Mitchell's profanity in Mrs. Ryan's hearing. Mitchell whirled upon Ryan and fired three shots. Ryan at no time had used force against Mitchell, but appealed only to his chivalry to stop such lan-

guage.
Mitchell escaped. He and his brother, according to reports, coming to the of-ficers three hours later, mounted horse-back and rode away in the direction of Dunsmuir and thence down the Sacramento canyon. Early Morning Blaze in Ninth Street Results in Damage of \$7000.

Midnight Fire Threatens Plant of California Cotton Mills.

Fire of mysterious origin destroyed two-story building at 360 Ninth street this morning shortly after 4 o'clock and seriously damaged adjacent structures before the efforts of the fire department availed. Five stores, numbering from 358 to 362, were included more or less in the conflagration, which threatened for a time to demolish the entire block. Nearly a half hundred Chinese, having quarters above the stores and in nearby buildings, were thrown into a panic, but no one was injured. It is estimated that the loss will approach \$7000, part of which is insured.

The fire is believed to have started in a large two-story frame building at 360 Ninth street, which has been vacant for some time, having formerly been occupied by Chinese shopkeepers. It is believed that some person sought sleeping quarters there and that the place was accidently set ablaze. However, that the property is the street who the server that the place was accidently set ablaze. the fire department availed. Five

Oakland, Cal., August 7, 1911.

Mr. William J. Bareus, City Hall, Oakland, Cal.
Dear Sir: I am enclosing herewith copy of a letter received from Mr. L. H. Weir, who is one of the national secretaries of the Playground and Recreation Association of America.

If you have time I wish you would read this letter, as it shows the opinion of an expert on the playground work already done in Oakland. I am sending this on behalf of the playground board.

Very Sincerely.
Al. S. TASHIERA.

The Playground and Facreation Association of America, I Madison avenue, New York City; 1053 Phelan building. San Francisco, Cal.

My Dear Mr. Tashiera: I wish to take this opportunity of congratulating you and the board of playground directors upon the spiendid progress your have made in providing for the play welfare of the children and young people in certain communities of your city. I have visited nearly all the large and middle-sized cities of the coast since last March, and I am very happy to tell you that Oakland not only compares favorably in playground development with them, but in some particulars excels all of them. Los Angeles is a possible exception, but even here I believe that in the type of supervisor you have placed in charge of your various play centers you excel.

FEATURES OF MERIT.

FEATURES OF MERIT.

Some of the excellent features of your work are:

1.—The comprehensiveness and completeness of your plans and work-play grounds, large and properly equipped athletic fields for the older boys and girls and working young people, boy scouts, farm gardens, celebrations of national festivais, baths, beginnings of evening recreation, center work, etc. You have grasped the ideal that play and recreation is for all the people and have made your plans accordingly.

2. The type of people you have chosen to be leaders, guides, instructors and companions for your children and young people. I can safely say that in your ideals here and in practically carrying them out, you excel all our coast cities. But you need more of them and the work is of such tremendous importance to the future life of the city that this ideal should be maintained and suitable recognition for efficient service should be made in adequate salaries.

3.—The fine spirit of co-operation among

4.—The provision for all-year-round work is a strong feature of your efforts. This accounts for your ability to hold a strong corps of workers together and extends the scope of your work in wider lines so as to make it possible to reach the working young men and women and adults in the evening and during the rainy season.

Funeral of Mrs. Hart Held To-day, the Remains Being Cremated.

adults in the evening and during the rainy season.

While Oakland has made great progress and as I say compares favorably with other cities of the coast, the other cities are not asleep. Portland two weeks ago placed a quarter of a million of bond upon the market for use in extending their system of small parks and playgrounds; Spokane will soon have a million dollars available for the same purpose; Seatte has about a million and a half available for the development of the work there. (This city has secured twenty playground sites within the past three years, besides the large park areas that can be used for athletic fields.)

#### COMPARISONS MADE.

COMPARISONS MADE.

Tacoma has equipped ten of their school playgrounds with apparatus and some four of her park sites. (The school grounds will this year in many cases be enlarged through a recent bond issue); Portland school board spent one hundred and fifty thousand dollars in securing school playgrounds this past school year; the little city of Everett is investing twelve thousand five hundred dollars in an athletic field and is opening playgrounds besides. There are a number of other places in the Northwest, most of them small towns, that have opened playgrounds this year, and in California this summer has seen Sacramento, Chico, Stockton and a number of other places added to the list of those cities having supervised playgrounds.

Everywhere the people are more and more awakening to the fact that there is no point in our towns and cities where a dollar will go further in the making of those things for which the city exists—health, vigor, morality, efficiency and happiness of the people—than in the provision and maintenance of playgrounds, athletic fields and recreation centers. I sincerely trust that the splendid work you have done and the tremendous importance and necessity of future development will receive suitable recognition in a largely increased appropriation in the forthcoming budget.

Again congratulating you, I remain Sincerely: Yours, (Signed) Flaground and Recreation of America.

Be Taken Up.

The investigatins of Professor have not reached a stage where they are of economic value. Citrus fruit growers have asked him to determine how the brown spot can be prevented and what

is its primary cause.

It was found that the objectionable spots on the orange, while they did not interfere with the taste or flavor, made the fruit sell at a lower figure in the market on account of its appearance.

#### PESTS ARE EXPENSIVE.

The habits and elimination of citrus fruit insects, which cost growers \$500,000 annually in fumigation, labor and materials, have been exhaustively treated in a bulletin which appeared on the campus of the university yesterday from the pon of Professor H. J. Quuyle, assistant entomologist, plant disease laboratory at Whittier.

According to Professor Quayle, the control of dirus fruit insect pests is one of the greatest problems of the fruit industry in this State. Fumigation costs from \$30 to \$40 an acre, but the writer believes the money to be well spent.

#### BROWN IS WINNER OF BERKELEY WILL MEET SHADY BOUT FROM JOE FERGUSON

BOLTIMORE. Aug. 8. — Before the Washington: Sporting: club. Knockout Brown received the decision at the end of ten fast rounds by Referee Charley White of New York, over Joe Ferguson of Philadelphia.

Brown had all the best of the bout, giving the Philadelphian a ball lacing and knocking him through the ropes in every round about twice, in each succeeding round, and having him stay there for a count.

Ferguson fought foul throughout the battle by holding at every opportunity. He was repeatedly warned by White for his tactics, but to no avail.

The crowd yelled for Brown to stow Ferguson away and it looked in some respects that he was pulling with Joe, as it became known later that Brown was offered a big sum to meet Ferguson in Philadelphia in an open air show within three weeks, providing Joe made a good showing with Knockout.

Ferguson's tactics of fighting earned him a bad name among local fight fans. Before the bout the Quaker wanted some man from Philadelphia to referee the contest, but was forced by the club officials to accept. Charley White, who was favored by the fans.

#### BUNDY WORKS INTO **BIG TENNIS FINALS**

NEW YORK, Aug. 8.— T. C. Bundy, the California, won his place in the semi-final round of the New York State lawn tennis championship tournament yesterday. In the fifth round he defeated R. D. Little, 6:8, 6-4, 6-8.

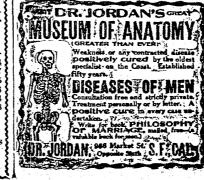

Bundy's back-benders and diminished speed drives were always good enough to outplay Little.

RACEHORSES BURN TO DEATH, PARKERSBURG, Aug. 8. — Thirteen young racehorses belonging to Judge Beese Blizzard and the C. H. Shattuck estate were burned here yesterday when a stable at Shattuck Park race track was destroyed by fire. The loss is \$35,000.

#### Battling Nelson Still Demands Big Money to Show Self

KLAMATH FALLS, Aug. 8 .-Battling Nelson will in all probability be seen in the roped arena in this city. The Klamath Athletic Club has a lad named Anderson who believes he can put Nelson to the mat for keeps and has issued a challenge. Nelson has wired that he will come for a guarantee of \$500 and 60 per cent of the gate. The matter will be decided upon this week and will probably be accepted and the match ar-ranged. Anderson won over Ed-wards here Friday night.

### HARNESS MEET WILL OPEN AT WOODLAND **TOMORROW**

WOODLAND, Aug. 8.—The Woodland management is making every effort to arrange perfect details for the harness meet which will be held in this city next Wednesday. Thursday, Friday and Saturday. The Woodland meet has been a fixture in the state's trotting and pacing competition and records have been broken at each of the annual meetings held there.

Trains will leave and return to Oakland in time to allow local enthusiasts a chance to make the trip without losing any great amount of time. The hotels have arranged for the expected gatherings and everything has been planned to make everything comfortable for visitors.

Three races are carded for the first day's sport, which includes a 2:15 pace, a 2:16 trot and a 3-year-old pace. On Thursday, there will be a 3-year-old processed and a 2:12 trot; a 2:10 trot, 2:20 pace and a race for mattnee horses will be run on the closing day.

The bout on Powers card is the trep without losing former policeman. Miller has eleaned up the field of heavyweight with the exception of Long. The latter is a shifty fighter for a big fellow and should carry Miller along at a stiff cilp. The other bouts on the card are as follows:

Scotty Miller meets Buck Lemon, Charley White will oppose Kid Booker, Nigger, Sambo will tackle Kid Ross and Dick O'Brien.

ANOTHER LIGHTWEIGHT IN TOWN.

Frank Whitney, a lightweight from Minneapolis and his manager, Eddie Coleman, arrived in San Francisco yesterday in quest of matches with some of the local ring stars.

Coleman says his protege has defeated some of the box hoys in the middle west and it was only when he couldn't west and it was only when he couldn't specified and a care for mattnee horses will be run on the closing day.

## TROUBLES STILL BESET BOXING PROMOTERS OVER THE BAY

Neither Coffroth or Clark Have Any Card; Four-Rounders Hold the Fort.

From the way affairs pugilistic are shaping up it looks very much as if the fans will be without an attraction this month. Jimmy Coffroth spoke last night and said that he wouldn't attempt to stage a card unless it was a really clever one, and that so far he hadn't the least hopes of landing this clever

"Unless I can secure a really first-class match for August I will not attempt to promote a boxing match this month. I will simply let the date go by and turn my time and energies to a September bout. I don't believe in putting on third and fourth raters. It hurts the boxing game, for it does not give out the right impression after a man has witnessed such a bout. I have found that most of the prominent boxers are tied up with matches just now, and f: looks like I will pass up my date this month." Both Coffroth and Milton T. Clark, who

plans to put on a show in September, have been experiencing troublesome times trying to arrange suitable matches. Coffroth tried to get One-Round Hogan to abandon his Eastern trip to stay here and tackle Freddie Welsh this month, but the local lightweight could not be brought

SUPERVISORS SPOILED ONE MATCH.

Then Coffroth planned to get Billy Papke and Frank Klaus, but the Supervisors stepped in and blocked the proposed match on the ground that Papke had proven himself a faker in a bout in this city with Joe Thomas. Clark also met with similar luck in angling for matches. Willie Richie has been promised a match with Matty Baldwin before the Oakiand Wheelmen's Club this month if oakand wheelmen's Citio his host is he is successful against Johnny McCarthy Friday night. Baldwin meets Johnny Frayne in Salt Lake on the 15th of this month and Mel Moffitt is laying plans to bring the Boston lightweight on to go with Ritchie in a ten-round encounter.

GOLDEN GATES HAVE FAST CARD

GOLDEN GATES HAVE FAST CARD.

Promoter Eddie Powers of the Golden. Gate club has arranged an excellent card of four round bouts, which he will stage at Dreamland pavilion next Friday night. Powers has secured the pick of the four round performers and has topped off his card with a match between Wille Ritchie, the clever lightweight, and Tommy McCarthy, the hustling Mission scrapper.

There is considerable rivalry between this pair, and the fans are looking forward to a hot scrap. Ritchie is one of the cleverest boys boxing in the short distance game, while McCarthy is a whirlwind scrapper whose forte is to mix it.

whiriwind scrapper whose forte is to mix it.

The lads met on a previous occasion and the bout went four rounds to a draw. There was plenty of action in their last fight, and the fans look for a repetition of it.

Another bout on Powers' card is the heavyweight event between Charley Miller, the glant motorman, and Joe Long, the big former policeman. Miller has cleaned up the field of heavyweights with the exception of Long. The latter is a shifty fighter for a big fellow and should carry Miller along at a stiff clip. The other bouts on the card are as follows:

Sootty Miller meets Buck Lemon, Charley White will oppose Kid Booker, Nigger Sambo will tackle Kid Ross and Danny Murphy will swap punches with Dick O'Brien.

PAID TODAY TO LATE PIONEER

LAST TRIBUTE

THE LATE J. C. FREEMAN, whose funeral was held today.

The funeral of John C. Freeman, a ploneer resident of California, who died at his home, 845 Thirty-seventh street, Sunday night, at the age of 77 years, was held this morning at 9 o'clock from his late residence, thence to Sacred Heart church at Fortieth and Grove streets, where sciemn requiem high mass was celebrated followed by interment at St. Mary's cemetery.

Freeman retired from business about two years ago and came to this city, where he established a home. He was a native of County Kilkenny, Treland. He is survived by two daughters, Mrs. Margaret Haley and Mrs. Mary Connelly of this city, and two sons, C. J. Freeman of Oakland and J. B. Freeman of Monterey. Funeral arrangements will be made later.

William Matlock Arrested on Complaint of Woman on Charge of Kissing.

that his family knew nothing of his trouble.

He had served five years with credits, for burglary. Since his release from State's prison, he said, he had worked for Superior Judge Frank B. Ogden and at Merritt hospital, and this was proven. Judge Bledsoe continued the matter of pronouncing judgment until next Friday. William J. Matlock, a solicitor for a San Francisco newspaper and for a pat-ented device, was arrested late yesterday on a charge of disturbing the peace on the complaint of Edna Hakken of 1220 Nineteenth avenue, the woman alleging that he had attempted to kiss and em-brace her.

Nineteenth avenue, the woman alleging that he had attempted to kiss and embrace her.

Mrs. Hakken also alleged that he had made similar overtures to other women in the neighborhood when he called to solicit for the paper.

Matlock was arraigned before Judge Mortimer Smith this morning and pleaded not guilty. He asked for trial by jury, and the date for the trial was set for August 10. Matlock has been released on \$25 bail.

That he can in no way be classed as a "Jack the Hugger" is vigorously asserted by Matlock. He denies that there was trouble between himself and more than one woman, and states that in that case, ho was led to believe that his attentions would not be of an objectionable nature.

Matlock was arrested by Patrolman

would not be of an objectionable nature.

Matlock was arrested by Patrolman Enright after several complaints had been telephoned to Captain Thorwaid Brown of the Melrose polite station. He did not resist arrest, and later a warrant was sworn to by Mrs. Hakken charging disturbing the peace.

According to his associates in business, Matlock has been a well known solicitor around the bay for some years, and has never been in any trouble before. He is said to be an experienced man and his friends scoff at the suggestion that the story told by the woman is true. nan and Patrick W. Fahy, a native of Clinton, N. Y.

age in Canada.

CHICAGO. Aug. 8.—Not nearly so much buying enthusiasm showed itself in the wheat market today as had been expected. Instead, a goad deal of commission selling developed and there was a decided tendency for prices to sag. One reason was that more favorable crop reports from India had overcome to some extent in Liverpool the buillish feeling due to the spread of black rust in Canada? Damage advices from Russis appeared also to be less severe, according to official statements. Besides, the weather in Manitoba was clear and otherwise of a sort to help the fields escape more complete effects of the rust. Opening figures were ½c lower to ¾60½c up. September started at 93½c to 93½c, varying from ½c loss to ½c gain, and then sank to 92¾c. Heavy speculative selling of the May option weakened all the futures of corn. September opened ½c lower to ½c up at 84½c to 64½c. Outs eased off with other cereals. Trade was slow. September started ¼c off at 42c, touched 42½c and fell back to 41½c.

In provisions the advance of hop prices was more than offset by a selling drive led by a prominent trader, supposed to represent foreign interests. First transactions were 2½ 425c lower to 15c up. with January delivery \$18.50 for pork, \$8.52½ to \$8.55 for lard and \$8.50 for lbs. their way home Sunday afternoon, speeding along in Dr. Hamilin's new automobile. Bethehem Steel gained land material fractional advances were undeby Southern Pacific General Electric, Norfolk and Western and other active issues. Canadian Pacific was off \$\frac{2}{3}\$ and Colorado Southern 144.

Stocks were offered freely on the advance and a large part of the initial gains were seon wiped out, some issues going under yesterday's close. There was a moderate pressure against the Hill issues, St. Paul, the Coalers, Pennsylvania and Atchison. Trading diminished on the decline, but the list as a whole was steady.

The 1 ist again developed a sagging tendency towards noon, prices falling all around on relatively small offerings. The Harriman and Hill shares, Reading and other speculative issues fell under the preceding day's final quotations. The decline doubtless was assisted by a renewal of selling for the short account, which seemed to gaiher courage from an inertia on the rise. There were reports of private settlements between certain large buil operators and bankers resulting from the market's recent reactions. bankers resulting from the market's recent reactions.

The selling increased during midday and further recessions were scored. Weakness was
most marked in some of the tandard railers,
including Wisconsin Central, which declined 4%;
Toledo, St. Louis and Western preferred, Colorado Southern, Missouri Paclific and others in
this same group. The presumption was that
these stocks were being unloaded to meet pressing necessities of the moment. In the list of
high-class stocks Canadian Paclific was concpfeuous for its lose of 4% points, while Union
Paclific, St. Paul, Reading, Lehigh Valley, Great
Northern preferred, Northern Paclific, Chesapeake and Ohio and United States Steel were
off 1 to 2 points.

The market seemed to fall of its own weight,

#### **NEW TRIAL FOR MAN** UNDER BIG SENTENCE

Chester Ayhens, convicted of burglary in the first degree and sentenced on the 4th day of last February by Superior Judge William S. Wells to serve fifteen years in the penitentiary at San Quentin, will not have to serve the term. The District Court of Appeals has reversed judgment in the case and granted the man a new tried. The convicted man was jointly charged with Charles Miller wath having robbed the drugstors of J. H. Heath, in East Oakland, on November 5, 1910, and stolen a quantity of merchandise. Miller pleaded guilty and was sentenced to State's prison at Folsom, for fifteen years.

## RABBI WISE A COMPOSITE; CREATOR TELLS HIS HISTORY

Two portraits of WILLIAM H. THOMPSON as "The Wise Rabbi," in the play of that name.

#### Wm. H. Thompson Talks of Acts and Actors

Acts, acting and actors, newspapers and newspapermen, proposals and mar-riage, Oakland's growth, intelligent audi-ences and others, the years and what they have done for some stage people, friends and friendships—all of these and more he talked about in his dressing-room at the Orpheum theater last night. Hundreds of Oakland theatergoers have seen William H. Thompson in "The Wise Rabbi." Thousands will have done so before the week is out. To miss him is to lock the door on opportunity. The play Lee Deitrichstein wrote for the veteran character actor is the second rung from the top of the vaudeville ladder; there will not be any

vaudeville ladder; there will not be any above it until the great American tabloid has been written. Therefore it behoves you to see it.

The nose of the Rabbi Wise was a wrinkled ball of nutty in Thompson's hands when he told us he was glad we came. He had just started on the hour and a half's work he must do twice a day before the curtain goes up on the Prince's garden. As we watched him the potency of careful makeup was drummed into our realization, for when he finished and stood two feet away the illusion was complete. The high-light on the nose, alone, remained to remind us of paint and putty.

We asked him to tell us of the play. In "The Wise Rabbi" the carr's chan-cellor gives the Jew a single word in which to plead the cause of his people. Their fate, to be decided on that day, is in the hands of the Russian cabinet. "Silence" is the plea that wins the prince from his hatred and changes the ide against the Jews, and yet it too Dietrichstein two months to think of it.
The plea was three words at first,"
Thompson said, as he molded the putty.
Dietrichstein didn't like it, but he could think of no single word that would express the agony in the Rabbi's heart, the plea for his people and the argument that would win the chancellor. For two months Dietrichstein worked at the thing, but even his sledgehammer brain could not pound the three words into

"One night I was sleeping soundly when Dietrichstein burst into my room. I've got it!" he shouted, and I sat up in bed, blinking at him as stupidly as a person half asleep can blink. Twe got it! he informed me a second time. 'Silence!' he thundered. Then I understood. The thing for which he had worked for days in vain had come to him like a flash."

#### HAS PRAISE FOR FRIEND.

A long time ago we managed to evolve in adage from the multitude of words Noah Webster collected. "That man Noah Webster collected. "That man who has ever praise for his friends has ever friends to praise," we stuck in our hat. We're glad we did, now. William Thompson is a better friend of his friends than he is of himself. Fact. We doubted, too, that there existed in this purely personal world a man, woman or child of that stamp, but we've changed our mind. Thompson's voice caressed when he spoke of Dietrichstein.

"If anything human is devoid of all evil this man is," he said. "He keeps his mind clean, despite the smut around him. A treniendous producer, his work is so earnest that he loses himself in it. The strain of "The Concert," in which he created a character as clear cut as a statue's profile, was so great that he collapsed toward the end of its runt and was forced to close\_a week early. He shrinks from praise, yet praise is due him in measure.

him in measure.

"He has acquired much that is American since he mastered the English language, but his eating—". The speaker held up his hands. "He sticks to his old world appetite and we haven't been able to pry him loose. Before he goes to a restaurant he sends his wife in first to try it out."

#### TABLOID A SUCCESS.

There hoated up from the stage below line of "Other People's Money," folowed by a clap of laughing thunder from the auditorium.

"That's what they want." the actor exclaimed. "You know, when Dietrichstein wrote "The Wise Rabbi," he feared to give it to vaudeville. "They won't understand,"

vanced beyond the gee-that's-funny stage and that the audience was ready to think.
Friends told me the reception I would get from some of those on the other side

get from some of those on the other side of the footlights would break my heart, but I was physicially and mentally able to stand that, and here I am.

"I am glad I came. People have been kind and 'The Wise Rabbi' has proven that 'advanced' vaudeville is not a missioner. There are some who cannot absorb the but they are willing to litera and sorb it, but they are willing to listen and give those who can a chance to listen."

And gather round us, you gallery gods, for here is a tribute from America's greatest character actor.
"We have even held the boy upstairs
with the act," he told us, "and that is all

the proof we want that vaudeville has dropped the slap-stick."

"They understand this old world Rab-bi, living only for his people, neglecting himself that his heart may beat and his mind think for them. You don't find the kind in modernized America, although that says naught against the pastors of our flocks over here. But the Jew of Russia, for instance, has suffered and is suffering. The imprint of despot's heels are on his forehead and that makes of him a different creature. It is this mar that I portray in 'The Wise Rabbi.' No, I studied no one man to evolve the character. What I have gathered in my travels, glancing into the heart of those with whom I have come in contact, all served me. The Rabbi Wise is a composite. ""You don't want a Jew on your stage,' I told Martin Beck when he came

to me. 'Your patrons are tired of seeing the race portrayed.'" we suggested. "Yes. Beck told us that the only Jew his patrons were tired of seeing was the overdrawn caricature that the young actor still believes is the proper thing to spring on an unsuspecting audience."

#### SOME YOUNG ACTORS

Young actors! Thompson chuckled. "That reminds me of two or three wild young actors Henry Miller has met. Miller is worked to death handling two ends of the game and he is sometimes inclined

Paymaster, in Pippin Trial, Testifies He Found \$2000 in Desk.

MARE ISLAND, Aug. 8.—Paymaster's Clerk Fred E. Crossman, U. S. N., of Washington, D. C., was called to the stand at the opening of the Pippin court stand at the opening of the Pippin court martial here late yesterday. He told of his visit to the receiving ship Independence last year aind the inspection of certain books in the guardo pay office. Dr. W. E. Downing, Albert Casper, manager of the Vallejo Electric Light Company, and Manager E. Stevens of the Pacific Gas and Electric Company, were subpocnaed and told of bills contracted by Pippin's former clerk, James V. Fuller. Crossman testified that he struck the first balance of the accounts of the Independence in July, 1910, and that he found a shortage of \$2000. This shortage he reported to Martin.

The next day witness returned to the Independence and the shortage remained at \$2000. A suggestion was made that the money might be pigeon-holed in the safe and an investigation disclosed \$2000 in paper money in an envelope. This testimony is considered as substantiating the testimony of Pay Clerk T. J. Fuller and Roland W. Thompson that Pippin made good the shortage by borrowing. martial here late yesterday. He told of

Mediterranean Fly Brought by Ship That Lands Unwatched.

SAN FRANCISCO, Aug. 8.—That the dreaded Mediterranean fruit fly has had every opportunity to get a foothold in California and may already have infested the orchards of the State, was the startling announcement made yesterday by O. E. Bremner, chief deputy quarantine officer of San Francisco.

While thorough restrictions had been instituted against the admission of the pest at San Francisco and San Diego, it was said that no heed had been given to yessels arriving at other ports along the

coast.

For months past steamers have been arriving at the port of Alcatraz, in close proximity to Santa Barbara. Coming direct from Hawaii, where the Mediterranean fly is threatening the destruction of all fruit, the officers and crews of these steamers have, it is said, been permitted to land fruit without restraint.

If none of the infected fruit has as yet been scattered about the district, the horticultural officers believe ethey will be able to keep it out in the future.

it seems reasonable to believe it possible

#### CASHIER HIRES MAN TO BLOW SAFE; DEAD

NEW YORK, Aug. 8. — Following the death of Frank Walsh in a Jersey City hospital, the police declared that Samuel Brown, cashier of the Long Lock Milling company, had confessed that he had employed Walsh to blow open the safe in his office and destroy two ledgers, which, he said, would show that he was about \$2500 short in his accounts. Walsh's eyes were blown out and his body was charred from the effects of overloading the safe with nitro-glycerine.
